

RETIREMENT SUCCESS SEMINAR

PRIVACY, ESTATE PLANNING, AND ASSET PROTECTION

Learn how to acquire these advantages:

- Protect your assets from liability, judgments and lawsuits
- Allow transition of assets to mature beneficiaries
- Reduce or eliminate attacks on beneficiaries and control
- Avoid the probate process, costs, contestability and stress
- Create safety from family disputes, divorces, or future legal attacks
- Pass on your life time belongings to loved ones intact

Your Options:

- Do nothing (the County or State will automatically take control)
- Create a will and let the courts decide (expensive and takes months or years)
- Create “Joint Tenancy” with “right of survivorship” (partial solution)
- Create private asset protection protecting “now”, as well as when you are unable
